

Please leave our Indiana State Telephone Privacy Law as it is. I do not wish to start receiving those unwanted and intrusive telephone calls again. My home is much more peaceful since the privacy law came into effect. We used to receive up to 25 or more calls in a week. Now I do not receive any of those calls! It is HEAVEN!

The FCC should not implement any proposal that would lessen our State Telephone Privacy law! You should protect the people who are on the receiving end of those endless, intrusive calls!

Thank you,
Loretta Coleman
